Yohannes Mesay

Full-stack Website Developer

Innovative full-stack developer with a flair for crafting immersive user experiences. Armed with expertise in React.js and a solid background in responsive design, I thrive on transforming creative concepts into reality with clean, efficient code. Additionally, my proficiency in using backend as a service (BaaS) platforms like Supabase and my experience collaborating with backend teams have equipped me with a holistic understanding of full-stack development. This enhances my ability to deliver seamless and scalable solutions. Let's collaborate and bring innovative ideas to life.
